Enhanced Outdoor Living Experience

Exceptional Quality and Protection

Versatile and Customizable Designs

Energy Efficiency & Environmental Consciousness

Experience the boundless potential of your outdoor space with Corradi USA. Whether you're looking to create a comfortable oasis in your backyard, protect customers from the weather at your restaurant, or add a touch of luxury to a public space, our comprehensive line of shading products has you covered.

From retractable pergolas, screens, and awnings, to shade sails and louvered roofs, our products are designed to seamlessly integrate into almost any exterior environment. Transform your outdoor patio into a living space to be enjoyed all year round.

Alba Louvered Roof | AMPM Window Coverings

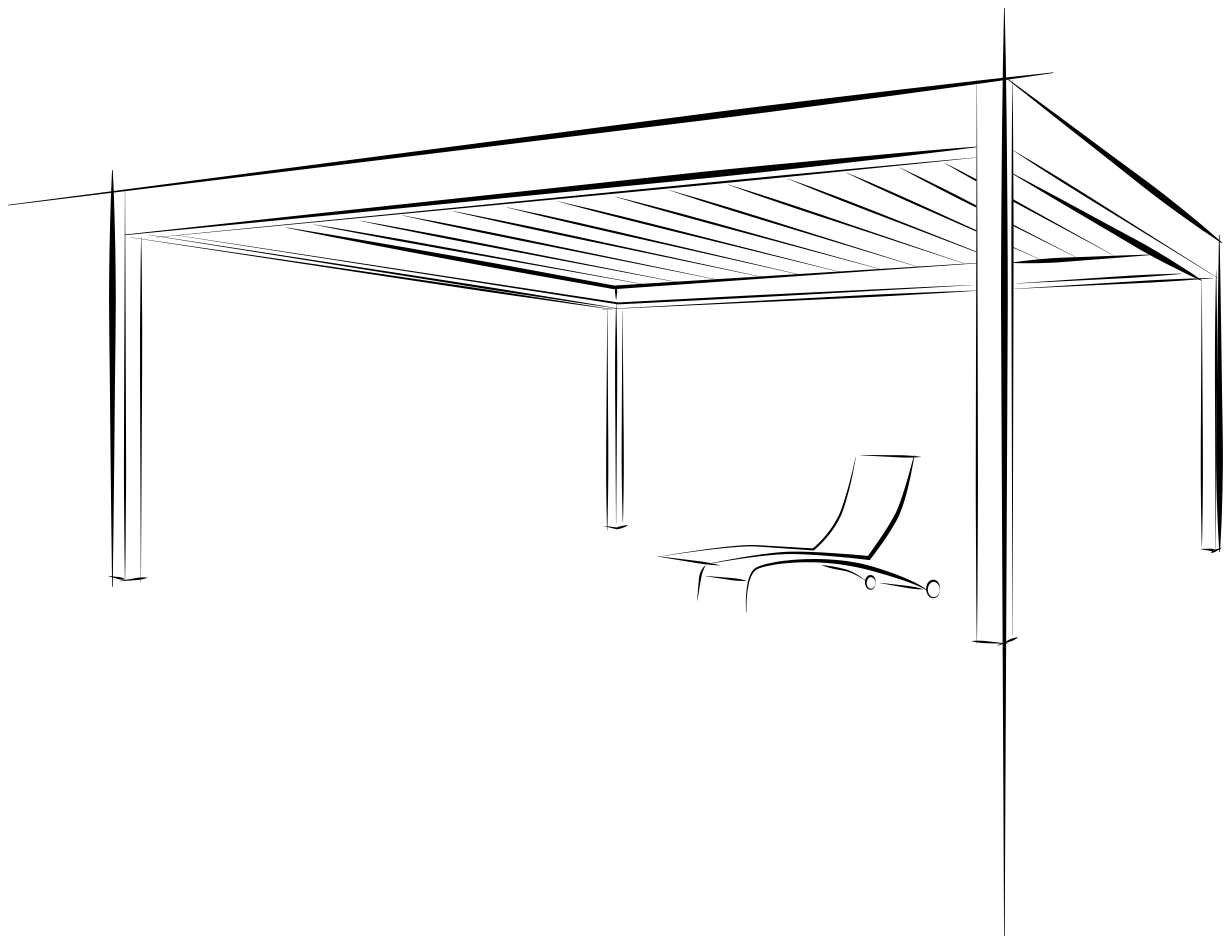

The Outdoor Alchemist

Louvered Roof Pergolas

Shade and the Art of Optimizing It

Louvered Roof Pergolas, often called bioclimatic systems, are aluminum structures equipped with rotating blades. With the touch of a button, the angle of the blades can be adjusted to control the amount of sunlight, ventilation, and rain within your outdoor living space. Create your custom climate with Corradi's Alba!

Alba Louvered Roof | Bella Outdoor Living

Alba

Louvered Roof Pergolas

A motorized, aluminum pergola fitted with blades that rotate up to 150°, providing control over the amount of incoming sunlight, rain, and ventilation. Integrated LEDs allow for all day use, and retractable screens offer additional shade and privacy, enhancing the versatility of outdoor spaces through all seasons.

ALBA Installation Options

	Single Module	Double Module	No. Pillars
FREESTANDING			4
WALL-MOUNTED			2
WALL-MOUNTED			2
WALL-MOUNTED			1
ALBA LIBERTY INTEGRATED			0
ALBA LIBERTY RESTING			0

ALBA Technical Data

The Alba seamlessly combines innovation and practicality in the form of a motorized, louvered pergola with blades that rotate 150°. By rotating the blades, you can adjust the climate in the space below for year-round comfort. When completely closed, the Alba is waterproof with a perimeter gutter system integrated into the pillars for drainage. Blades are convex and designed to channel water to the sides.

For more protection and privacy, you can complement the Alba with Corradi USA's retractable solar screens. Maximize your outdoor living space with additional options such as LEDs, splash guards, built-in down pipes, and shared pillars.

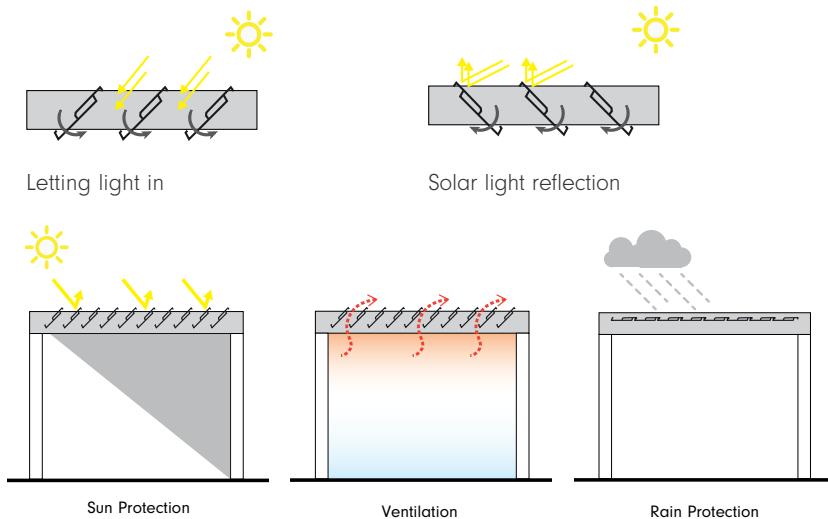

STANDARD FEATURES

- » **MOTORIZED OPERATION**
- » **INTEGRATED, PERIMETER GUTTER**
- » **WATERPROOF WHEN BLADES ARE FULLY CLOSED**
- » **WIND RESISTANCE**
- » **ALUMINUM PROFILES**
- » **FLAT ROOF ONLY**

- » **STRATUS SOLAR SCREENS**
- » **INTEGRATED LED LIGHTS**
- » **WALL MOUNT, FREESTANDING, OR LIBERTY (THE LIBERTY IS INTEGRATED INTO OR ON TOP OF EXISTING FRAMEWORKS)**
- » **OFFSET PILLARS (CANTILEVER)**
- » **RAIN & WIND SENSORS**

Direction of Blade Rotation

FRAME COLORS

POWDER COATING

The aluminum extrusions are painted in-house using certified Qualicoat cycle epoxy powders.

RAL CUSTOM COLORS ARE ALSO AVAILABLE

*Differences in color tones in this brochure may occur due to the production technique, therefore these finish images should not be used for final specifications.

MOTORS

RADIO CONTROLLED

Alba uses a low voltage piston driven motor, also known as a pneumatic electric linear actuator. This 24V motor is fitted on the single longitudinal side of the Alba and is housed inside a 5"x20" weatherproof enclosure mounted on top of the structure. It is easily operated by a Somfy wireless transmitter.

MEASUREMENTS

MAXIMUM DIMENSIONS	177 x 238 in single module
	236 x 238 in double module
TOTAL HEIGHT	119 in standard
PILLAR	4 x 4 in
BEAM	4 x 9 in
BLADE	8.5 in When blades are in the fully open position, 3.75" of blade will be higher than the main beam.
WATER RESISTANCE	830 gal/hr 2 drains open
MAXIMUM PAYLOAD*	22.53 lbs/sq ft on 11'2" x 19' system
WIND RESISTANCE	Up to 75 mi/hr with closed blades

*Maximum payload is calculated based on a worse-case scenario of fully closed blades and a passage height of 110 inches. In case of snow, we recommend positioning the blades at 90° to avoid excessive accumulations.

Alba Louvered Roof | Outdoor Living Solutions

Features, Options & Accessories

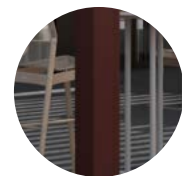

Introducing our latest product innovations!

These new developments are based on insight from our team of experts along with customer feedback. The following options are now offered with the Alba Louvered Roof:

“Why Corradi?”

For over 40 years we have been designing solutions that allow you to enjoy and enhance outdoor spaces, and for over 10 years we have extended our solutions to the USA. We have come a long way from the small artisanal workshop in 1978 to today's factories that use the best production technologies and distribute products throughout the world. We were the first to patent the product that embodies the archetype of shading, the perfect combination of a pergola and a sun shade. In addition to Pergotenda®, we also offer louvered roof pergolas, exterior screens, awnings, and various unique shading systems. With our exceptional quality, versatile designs, and commitment to innovation, we guarantee that our shading solutions will elevate your outdoor living experience. We put ourselves in your shoes and ask ourselves—

Why Corradi?

- We have numerous patents that guarantee exclusivity and technical expertise.
- Pergotenda® is made only by Corradi.
- We have over 40 years of dedicated experience with outdoor spaces.
- Our products are high quality, innovative, and custom made.
- Italian design is our signature.
- We offer a wide range of products and services that are constantly evolving.
- From the design phase to manufacturing and installation, we provide support in all aspects of project management.
- Our Dealers are chosen, authorized, and trained to be the best.
- We believe in the uniqueness of people and products.
- Our mission is to empower you to make the most of your outdoor living space by offering specialized shading solutions.
